

Unit 6 Writing quiz

A Read the ad about an auto show.

A N AUTO

Come to the auto show to see
what cars of the future
will look like.

This year's auto show will
have 20 new futuristic cars.

These cars include:

- a car that runs on air and does not pollute
- a car that runs entirely on electricity
- an SUV (Sport Utility Vehicle)
- a car that is made from recycled materials
- a car that is very light and fast

B Write a paragraph describing what you think the ideas in Part A and / or your own ideas.

Make sure that you:

- Include a topic sentence that tells what you think.
- Include supporting sentences that give reasons for the main idea.
- Include a concluding sentence that summarizes your ideas.
- Use modal verbs (*will, may, might, could*) to show possibility.

Sample Answer

Cars of the future will be better for the environment than cars that are better for the environment than cars of the future will likely cause little or no pollution. Eventually all run only on electricity, causing less pollution. Right now, up to seven people can fit in a car. It will be difficult to get in and out of the back seats. Cars will be able to ride comfortably in an SUV. As a result, there will be fewer cars on the road. No one knows for sure, but it is reassuring to know that they will eventually be better.
